

# LISA SHIOZAKI

I am a [Data + Interaction Designer](#). I research + design + code to create interactive visual reports. I am a data-driven, visual storyteller and love all things data. My approach to visualization follows the proverb 'less is more', and is motivated by rationality, usability, the human visual system and how these factors can be combined to answer meaningful questions. Let's talk!

## EDUCATION

Emily Carr University of Arts +  
Design (Sep 2017 - Apr 2018)
